Apple iPad Air 6th Gen 11-inch M2 128GB Wi-Fi

with Logitech Combo Touch keyboard case, Apple Pencil Pro and 3-year mechanical warranty (no excess) 3-year accidental damage cover (£20 excess) for the iPad Only.

Note: If protection downgrade is selected this protection cover will change to either 2-year or no cover depending on your selection.

The 2024 iPad Air is powered by the blazing speed and AI power of the M2 chip for exceptional productivity. It features a landscape front camera for brilliant video calls, while its stunning Liquid Retina display makes everything you work on, watch, or play look simply gorgeous. Dive into the amazing apps of iPadOS and get things done in magical, intuitive ways.

The amazing speed of M2
The incredibly fast M2 chip brings breakout performance to iPad Air. With a powerful CPU, GPU and Neural Engine, it's nearly 50 per cent faster than the previous generation. So you can easily plan your house renovation in Trimble SketchUp, play the latest triple-A games like Zenless Zone Zero, or use AI-enabled motion tracking in Onform to fine-tune your golf swing. All with amazing efficiency for all-day battery life of up to ten hours.

Liquid Retina display
A gorgeous, high-resolution Liquid Retina display brings everything you love to do to life, delivering a brilliant, responsive, and colour-accurate viewing experience. An anti-reflective screen coating and True Tone keep text sharp in all kinds of lighting conditions. And with high brightness and P3 wide colour, images look stunning.

Landscape front camera
Now located on the long side of iPad Air, the 12MP Ultra-Wide front-facing camera creates a perfect video calling experience - especially when iPad Air is attached to a Magic Keyboard (sold separately). And with Centre Stage, machine learning enables the camera to automatically adjust to keep you centred in the shot. The 12MP Wide back camera captures

vivid photos and amazing 4K videos, plus you can use it to scan documents and then fill them in with Apple Pencil.

iPadOS and apps
iPadOS is designed to let you do all the things you love easily and powerfully from first touch to finishing touches. Use multiple apps at the same time, write in any text field, and navigate quickly and efficiently.

All day battery life
The iPad Air will keep you going for up to 10 hours of surfing the web on Wi-Fi or watching video off a single charge.

Wireless communication
Built-in Wi-Fi makes it easy to connect this tablet to the internet, whether that's through your own home network, Wi-Fi at work or a public connection. Bluetooth will let you send files and folders wirelessly between Bluetooth devices, and stream music to compatible speakers or headphones.

Logitech Combo Touch Keyboard Case for iPad Air 11-inch (M2)

Logitech Combo Touch Keyboard Case enables new levels of versatility. Type, sketch, view, read and more, all while keeping iPad Air safe from scuffs and scratches in a protective, form-fitting case. It features a flexible kickstand and a full-size detachable keyboard for multiple use modes.

A large click-anywhere trackpad provides an intuitive tracking experience and supports all the multi-touch gestures you know and love like swipe, pinch, double tap and more. The slimmest Combo Touch yet, it slips into bags, travels light and powers your productivity anywhere.

Highlights

- Multiple modes to type, sketch, watch videos, read or hop on a video call.
- Detachable keyboard to view and read with total freedom.
- Flexible kickstand offers a variety of angles.
- Large multi-touch trackpad.
- Thin and light design with secure, form-fitting protection.
- Large full-size keyboard with auto-adjusting backlit scissor keys.
- Smart Connector — seamless, instant and secure connectivity, powered by iPad.
- Space to store Apple Pencil while keeping the case on.

Form Factor: Hard Case, Portfolio
Height: 1.51 cm / 0.59 in
Length: 25.2 cm / 9.92 in
Width: 18.9 cm / 7.44 in
Weight: 495 g / 17.46 oz

Apple Pencil Pro

Apple Pencil Pro adds even more magical capabilities to help bring your ideas to life. Advanced features make marking up, taking notes, and creating a masterpiece more intuitive than ever.

Squeeze
Apple Pencil Pro can sense when you squeeze it and brings up a new palette so you can quickly switch tools, line weights, and colours, thanks to a sensor.

Barrel roll
A gyroscope allows you to rotate the Apple Pencil Pro for precise control of shaped pen and brush tools.

Haptic feedback
A custom haptic engine provides feedback that you can feel. When you squeeze or double-tap, a light pulse confirms the action.

Apple Pencil hover
Preview exactly where your Apple Pencil will touch down on your display. So you can write, sketch, and illustrate with even greater precision.

Double-tap
Quickly switch between tools, like a pen and eraser, with a double tap.

And if you misplace it…
you can easily locate it in the Find My app. Apple Pencil Pro attaches, pairs, and charges magnetically on the side of your iPad.

Dimensions: W166 x D8.9mm
Weight: 19.15g
